Euroline, Inc. Celebrates 10 Years With MOTOREX of Switzerland

New Milford, CT, 04/01/07 – Euroline Inc., exclusive U.S. importer of MOTOREX Industrial Lubricants celebrates its 10th anniversary.

Euroline, Inc. was founded in Carmel NY in 1997, with the sole purpose of serving as the importer for MOTOREX industrial lubricants from Switzerland. In 2003, Euroline, Inc. moved to a bigger, more purpose built facility in New Milford CT that allowed for the increased business activity. Euroline Inc. also continues to maintain storage facilities in NJ, close to the port of arrival.

With the release of its latest cutting oil, MOTOREX ORTHO NF-X, the company continues to build name recognition, particularly in the field of medical manufacturing and fuel injector technology, where compatibility, tool life, speed, cleanliness and performance in high strength materials, such as stainless steel and titanium, are of utmost importance.

Bucher Motorex was founded in Langenthal Switzerland over 85 years ago. After its sister company MOTORREX AG was founded in the early 1970's, this independent Swiss company became increasingly focused on industrial applications. Today MOTOREX is Switzerland's largest and most innovative fresh oil processing company and successfully sells a wide range of products around the world. Euroline, Inc., New Milford, CT, imports Motorex industrial products into the U.S.
